Specifications:
- Product meets ASTM B-117 for salt spray corrosion testing

Features:
- High degree of corrosion resistance
- Coating exceeds 1,000/hr. salt spray resistance
- Kesternich: 15 cycles
- Rust/Acid rain protection
- Designed to work with ACQ treated lumber

Coating:
The Strong-Shield coating is a high-grade metal surface processing technology that prevents fastener corrosion. The system consists of four layers: a metallic zinc layer, a hex-chromium passivation, a layer of functional nano coating used as a sealer, and a high-grade anti-corrosion chemical conversion film.
