**WAR[®] HIGH-PERFORMANCE COATING**

Coating	Salt Spray	Kesternich	Description
WAR	1,000/hrs.	15 Cycles	Coating used outdoors for highly corrosive applications. ACQ compatible.

Specifications:

- Product meets ASTM B-117¹ for salt spray corrosion testing

Features:

- High degree of corrosion resistance
- Coating exceeds 1,000/hr. salt spray resistance
- Designed to work with ACQ treated lumber

Coating: The WAR coating is a high-grade metal surface processing technology that prevents fastener corrosion. The system consists of three layers: a metallic zinc layer, a passivation, and a high-grade anti-corrosion chemical conversion film.

¹(Tested in accordance with the American Society of Testing Materials - ASTM B 117)
